Middle Tier : EJB 2.x/3.x , JTA, JMS, Spring.

Web/Application Servers: Weblogic, WebSphere, Glassfish, JBoss, Tomcat.

Design : OOAD, UML, GoF Patterns, J2EE Patterns, XSDL Patterns

Persistence : Hibernate, JPA, JDO, Kodo, iBatis.

Security : JAAS, JCE, PKI, WS-Security, SAML, X.509, LDAP

Clientele:

The following is a partial list of organizations for which he has trained and/or consulted:

- | | |
|---|---|
| <input type="checkbox"/> Oracle India. | <input type="checkbox"/> Manhattan Associates |
| <input type="checkbox"/> Oracle University(Hong Kong) | <input type="checkbox"/> HP |
| <input type="checkbox"/> SAP Labs | <input type="checkbox"/> IBM India Ltd., |
| | <input type="checkbox"/> Deutsche Software Limited(HCL) |

- | | |
|---------------------------------------|---|
| <input type="checkbox"/> Yahoo! | <input type="checkbox"/> Satyam Computer Services |
| <input type="checkbox"/> Accenture | <input type="checkbox"/> Novell. |
| <input type="checkbox"/> I-Flex Sol. | <input type="checkbox"/> VTC , Hong Kong |
| <input type="checkbox"/> Misys IFS | <input type="checkbox"/> Samsung SDSI |
| <input type="checkbox"/> Siemens ISL | <input type="checkbox"/> EMC Corp |
| <input type="checkbox"/> Cerner India | <input type="checkbox"/> Hospital Authority (HK) |
| <input type="checkbox"/> Ciena India | <input type="checkbox"/> Nortel Networks |
| <input type="checkbox"/> CTS | <input type="checkbox"/> Ness |

Few typical training classes that he conducts :

- Weblogic
 - System Administration
 - Advanced System Administration
 - Monitoring and Performance Tuning
 - Developing Enterprise Portals using WebLogic Portal
- Java EE application development
- EJB 3 with JPA
- Java EE Design Patterns
- SOA with Java Web Services
- Performance Engineering for Java / Java EE
- Spring Framework
- Persistence with Hibernate
- Developing Secure Applications with Java and Java EE
- etc.,

Pradeep is seasoned developer as well as an experienced administrator for many server products. In addition to being a seasoned administrator/developer himself, he has also played diverse roles in his career including :

- Has acted as a mentor for teams implementing EJB based financial services applications
- Has also acted as a technology expert/consultant for a technology migration project involving a large Switzerland based financial giant.
- To add to the diversity of his experience, he has also helped a large retail banking product company, based out of Dublin, to screen, interview and recruit J2EE architects and tech leads.
- He is involved with a large IT services company for coming up with and executing a training plan to transition SSEs to technical leads and technical leads into architects.
